

There are two courses that we offer, Fire Awareness training and Fire Warden Training

Fire Awareness Training

This course is designed for employees who have never received Fire Training or require an essential refresher. The training meets the requirements under the fire safety legislation (NI) 2010. The Legislation states that All Employees should have Fire Safety Training at Induction and periodically thereafter. This will prepare delegates should a fire break out.

Course content includes the following theory:

- Employee responsibilities with regard to Fire Safety
 - The danger of fire and how it can spread
 - How to Prevent Fires and Safe Working Practices
 - Fire classification and the methods of extinguishing different types of fire
 - The correct Procedure to take in the Event of Fire
 - A discussion regarding local arrangements is normally promoted
 - This course includes a short multiple-choice test and /or other learning activities.
- Practical hands on experience of Discharging a Water & CO2 fire extinguisher together with demonstration and practical training on the correct use of a Fire Blanket.
- A Certificate will be awarded on successful completion of course

Course Duration - Approximately 1 and a half hours. This course is carried out on site at your workplace.

Fire Warden Training

This course is designed for employees who have taken on the role of Fire Warden or Fire Marshal. The training meets the requirements under the fire safety legislation (NI) 2010. All businesses are required to have designated staff, trained as fire wardens or marshals, who assist the appropriate / responsible person in the business in providing a working environment which is safe from fire. The appropriate / responsible person also has a duty to ensure the safety and full evacuation of the premises in the event of an emergency incident. Fire Wardens or Marshals may have a range of responsibilities, for example checking fire extinguishers are in place and unused or testing the fire alarm on a weekly basis, but their primary role will always be in assisting in the safe, full and controlled evacuation of the premises.

Course content includes the following theory:

- The role & responsibilities of a Fire Warden
- An overview of the current fire safety legislation
- The dangers of fire and how it can spread
- The main causes of workplace fires and fire preventative strategies
- Fire classification and the methods of extinguishing different fire types
- Human behaviour in a fire situation
- Actions to take in the event of a fire
- Evacuation strategies and sweep searching techniques
- Fire safety checks and how to complete a fire logbook
- A discussion regarding local arrangements for your workplace
- This course includes a short multiple-choice test and /or other learning activities.
- Practical hands on experience of Discharging a Water & CO2 fire extinguisher together with demonstration and practical training on the correct use of a Fire Blanket
- A Certificate will be awarded on successful completion of course

Course Duration - Approximately 2 hours. This course is carried out on site at your workplace

*Additional training courses can be supplied to suit clients' needs.
